WCBN	Michigan, Univ. of	KUGR	Washington, State College of
WRMC	Middlebury College	WESU	Wesleyan University
WMSU	Mississippi, Univ. of	WMS	Williams College
WCBH	Mississippi Southern College	WYBC	Yale University
KNMA	New Mexico A & M College		

AMERICAN TOBACCO (Continued)

As in past years, program emphasis will be placed on news and sportscasts, with national and world news and sports from United or Associated Press.

RCA University Library Program Series plans are currently under discussion within RCA. Attention is called to the fact that a few stations have not sent in all monthly RCA program reports, making it impossible to complete an evaluation of the particular station's qualifications to continue in the program series. Individual letters have been sent to each station with a monthly RCA report due. If your station receives such a letter, please fill in and return to us the monthly form indicated, so that your cumulative performance records may be brought up to date.

New CAREER HOUR program will be offered many stations. College Radio Corporation has just completed negotiations with CAREER PUBLICATIONS, INC., of New York City, for the sale of a portion of a package program to be known as the CAREER HOUR.

The CAREER HOUR will consist of a daily program of semi-classical and classical music to be scheduled daily, five days a week, sometime between nine and eleven p.m. Co-sponsors with Career Publications will be the leading American industries who are interested in recruiting college seniors. These institutional sponsors will each utilize one one-minute spot announcement per week for all twenty-six weeks of the school year. It is our goal to sell up to thirty sponsors for each station so that six different spots can be broadcast in each nightly hour program, five days a week.

Of course, such a program will be of great interest to college Placement Offices. Placement Office Directors at colleges whose stations desire to carry the CAREER HOUR programs will receive details of the program plan from us, and may in turn contact the student managers of the particular stations. While a few Placement Officers might view this program with some alarm as a possible infringement on their scope of activity, reassurance by the station that there is a genuine desire to cooperate with the Placement Office will doubtless quiet such fears. Further, a part of the program plan is to ask each college Placement Director to make occasional talks on the program about interview and job-getting techniques, and about the functions of the Placement Office.

A more complete description of the program together with a sample script will be sent to stations late in August. We have already received verbal commitments from a number of large institutional advertisers for this program, and hope your station will be available for the series. If there is any reason why your station cannot carry these programs, please advise us of that fact immediately.

Spot announcements on these programs will be paid for at regular rate card rates. Member stations of the Intercollegiate Broadcasting System will be pleased to note that program arrangements have been approved by IBS.

A FURTHER REPORT on the status of national advertising accounts for the 1954-5 school year will appear in our next Sales Newsletter, to be distributed August 15th. Meanwhile, return promptly to us the postal card questionnaire just sent out asking you to indicate the date of your first broadcast this fall. This information is essential if your station will carry any national accounts.
